How it should function?

1. Design should be the same as is shown in the figma file.
2. Use figma prototype for animations, user experience

What all you need to submit

1. You need to write code as per the conditions and functionality mentioned above.
2. You need to host it on any of the free/paid platform so that you can provide us a working web URL for this problem.
3. You need to upload the code as a zip file for us to look at your code and evaluate the same. You can also send us a GIT link for the same.

Please note:

- Write a good functional and optimum code.
- Please write comments so that the evaluator can clearly understand your code.
